

Internship in the R&D department (In Vivo Research Team) (f/m/d) Unpaid compulsory or voluntary internship

Internship in the R&D department (*In Vivo* Research Team) (f/m/d)

Unpaid compulsory or voluntary internship | Minimum duration 6 months | Location Grambach near Graz

Would you like to gain practical experience in preclinical research and gain an insight into the work of an international research company? Then become part of our R&D team and support us in exciting research projects in a professional scientific environment.

Your tasks:

- Collaboration in the daily care and observation of laboratory animals
- Treatment of laboratory animals
- Independently perform behavioral tests with mice to collect accurate, reproducible data
- Evaluating behavioral experiments
- Statistical evaluation, presentation and interpretation of data
- Support with sample collection and other study-related activities under the guidance of experienced colleagues
- Compliance with quality, safety and animal welfare standards
- Support of the team in organizational and administrative tasks in the research area
- Collaboration in the preparation of collected data for marketing purposes

What you bring to the table:

- Minimum requirement: Bachelor's degree in biological sciences or equivalent
- Interest in laboratory work and histological methods
- Experienced user of Microsoft Office
- First experience with behavioral tests on animals (mice) preferred
- Careful, structured and reliable way of working
- Fluent in written and spoken English or German
- Ability to work in a team and high willingness to learn

This is what you can expect from us:

- Exciting insights into preclinical research and study processes
- Collaboration in an experienced, international research team
- Getting to know modern methods and processes in the field of In Vivo Research
- Opportunity to gain valuable practical experience for studies and career entry
- Open corporate culture and collegial working environment

General conditions:

- Type of internship:** Unpaid internship
- Duration:** At least 6 months
- Erasums +** is supported
- Start:** By appointment
- Place of work:** Grambach near Graz, Austria

About Scantox Neuro GmbH:

Scantox Neuro GmbH is a leading preclinical contract research organization and supports the development of safe and effective drugs worldwide.
